

FROM ONE BAND TO ANOTHER

A DAY IN THE LIFE OF DANIEL FERNÁNDEZ ANTENNA RECEIVERS

THIS IS DANIEL FERNÁNDEZ, AN IMPORTANT PART OF THE TEAM RESPONSIBLE FOR THE ANTENNA RECEIVERS -BANDS- AT ALMA

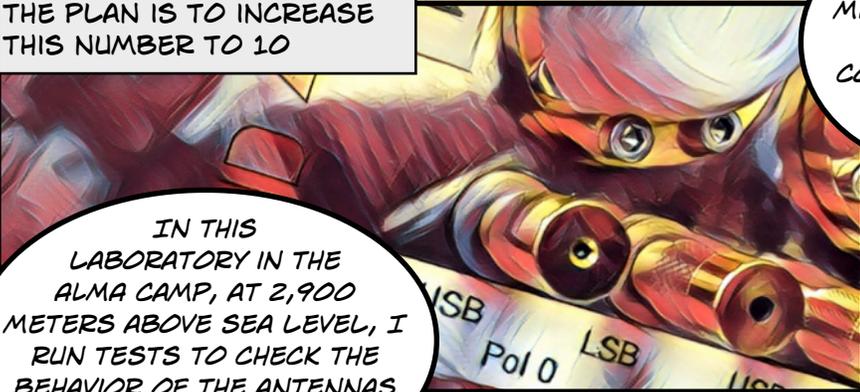

I WORK WITH THESE POTS, WHERE THE ANTENNA BANDS OR RECEIVERS ARE LOCATED...

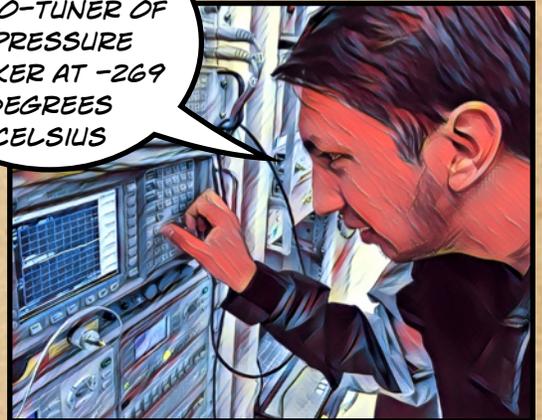

RIGHT NOW THERE ARE 8 BANDS INTEGRATED IN EACH OF OUR 66 ANTENNAS... THE PLAN IS TO INCREASE THIS NUMBER TO 10

I AM BASICALLY A MICRO-TUNER OF A PRESSURE COOKER AT -269 DEGREES CELSIUS

IN THIS LABORATORY IN THE ALMA CAMP, AT 2,900 METERS ABOVE SEA LEVEL, I RUN TESTS TO CHECK THE BEHAVIOR OF THE ANTENNAS AFTER THE INTEGRATION OF EACH BAND

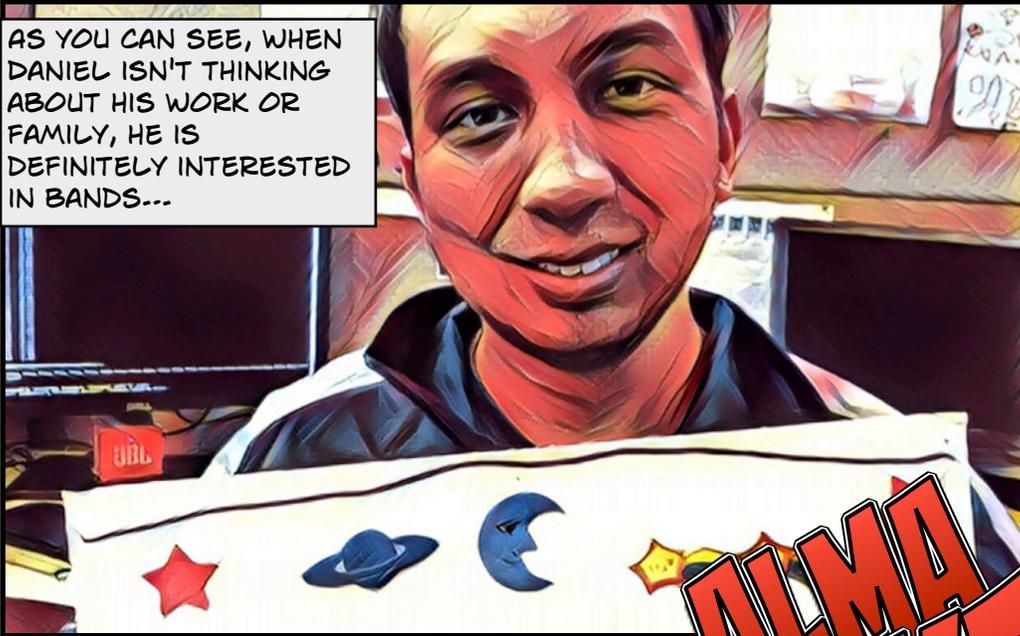

SOMETIMES ELECTRONIC PROBLEMS IN THE ANTENNAS CAN BE SOLVED FROM A DISTANCE. IT'S INCREDIBLE!

WOW!

AS YOU CAN SEE, WHEN DANIEL ISN'T THINKING ABOUT HIS WORK OR FAMILY, HE IS DEFINITELY INTERESTED IN BANDS...

BUT NOT JUST ANY BAND!

ALMA ROCKERA

BECAUSE ALTHOUGH DANIEL LOVES HIS JOB, IN TERMS OF BANDS, HE PREFERS THIS ONE...

AND ALSO "ALMA ROCKERA", MADE UP OF OBSERVATORY ROCK STARS

DANI IS A MONSTER ON THE KEYBOARD AND PLAYS CLASSIC ROCK, LATIN ROCK, 80'S ROCK AND CHA CHA CHA

AND TOGETHER WITH HIS MUSICAL COLLEAGUES, HE KNOWS VERY WELL THAT THERE ARE OTHER STARS TO WATCH AT THE OBSERVATORY
